

SUNRIVER SERVICE DISTRICT FIRE DEPARTMENT

ENGINEER/PARAMEDIC

Classified Service

FLSA Status – Non-Exempt

EEO Code – D/Professional Service Workers

Job Code – SFDJC 102

CLASSIFICATION SUMMARY

Positions in this classification are responsible for the protection of life and property through the performance of a full range of fire fighting, emergency medical services and other duties while assigned to a 24-hour shift. Under the direction of the Fire Captain, positions in this classification are primarily responsible for driving and operating fire and rescue apparatus and equipment, pumps, and aerial ladders. Major elements of the work include participating in supervised drills; training in fire fighting skills, rescue techniques, and emergency medical services; and participating in hydrant and building inspections; maintaining the fire station, apparatus and equipment; and acting in a lead capacity to reserve firefighters. This classification is distinguished from Firefighter/Paramedic because of the Engineer's responsibility for driving and operating fire and rescue apparatus and equipment, pumps, and aerial ladders.

Engineer/Paramedics perform under hazardous conditions involving smoke, heat, toxic gases and cramped surroundings. Strenuous physical exertion is usually necessary. Work is normally performed in accordance with well-defined procedures and regulations under the supervision of a fire officer; however, trained engineer/paramedics are frequently called upon to work independently and to make critical decisions in emergency situations.

SUPERVISION

This classification works under the general direction of a Fire Captain.

SUPERVISION EXERCISED

This classification coordinates the work of reserve firefighters and is involved in the training of newly hired personnel.

ESSENTIAL DUTIES AND RESPONSIBILITIES

The duties and responsibilities listed should not be construed to be all-inclusive. The essential job duties will include other responsibilities as assigned and required.

1. Responds to alarms and performs a variety of duties that include driving and operating fire apparatus and pumps, aerial ladders, and rescue apparatus;
2. Performs record keeping associated with fire and emergency responses;
3. Responds to alarms and performs specialized rescue and fire suppression tasks, and salvage activities;
4. Participates in fire drills and attends classes in fire fighting, emergency medical training, and related subjects;
